Annie Wang

Tzu-Yun (Annie) Wang

Washington, DC | gabbianoqbw@icloud.com | [linkedin.com/in/tyw-271a16233](https://www.linkedin.com/in/tyw-271a16233)

Technical Skills

Programming & Analysis: R (ggplot2, tidyverse, Quarto/R Markdown), Python, SQL, Stata, SPSS

Data & Visualization: Tableau, Power BI, Excel (advanced), Microsoft Access

Data Sources: OECD TiVA, UN Comtrade, ADB MRIO, PitchBook, Bloomberg, LexisNexis, Edgar, Foundation Directory

Other Tools: MS Office Suite, SharePoint, Git/GitHub

Education

American University, School of International Service

Washington, DC

- M.S. in International Economic Relations May 2026
- B.A. in International Studies Dec. 2024
- B.S. in Data Science Dec. 2024

Research & Data Projects

Supply-Chain Exposure in U.S. Telecommunications (*PPOL 5202 Final Report*)

Combined UN Comtrade gross trade data, OECD TiVA value-added data, and ADB MRIO tables in R to examine Chinese supply-chain exposure in the U.S. telecommunications sector. Produced 8 publication-quality figures using ggplot2 with a custom reusable theme function; rendered as a full policy report in Quarto.

Exploratory Visualization: Palmer Penguins (*PPOL 5202 PS2*)

Built four layered ggplot2 visualizations — including a multi-source boxplot with dodged group means and connecting lines — demonstrating data wrangling with tidyverse and best practices in literate programming.

PitchBook Investment Ecosystem Guide (*SCSP, 2026*)

Developed an internal guide at the Special Competitive Studies Project to standardize the use of PitchBook for cross-country investment ecosystem analysis, supporting research on U.S.–China technology competition.

AI Value Chain Analysis (*DBS Bank GTS, 2023*)

Collected and synthesized revenue reports from 5 teams; broke down the AI value chain by sub-industry; identified 16 existing/potential clients and narrowed a prospect list to 8 with supporting financial and operating profiles.

Professional Experience

Special Competitive Studies Project

Arlington, VA

Research Assistant

Jan. 2026 – Present

- Conduct empirical and policy research on AI, quantum technologies, and U.S.–China technology competition
- Co-lead agentic AI commission; coordinated speakers from Anthropic, Meta, and Stanford
- Developed internal PitchBook guide to analyze countries' investment ecosystems

DuPont de Nemours, Inc.

Taiwan, Hsinchu City

Microsoft Access Summer Intern

Jul. – Aug. 2025

- Collected and standardized employee health data from 6 hospitals using Excel and SQL; built a Microsoft Access database system, saving over \$10,000
- Developed and maintained a centralized SharePoint site for the Health Services department to streamline document access across all DuPont Taiwan sites

Strategies for International Development

Washington, DC

Program Associate

Jan. – May 2024

- Identified 23 new donor prospects using Foundation Directory through geographic and cause-interest filtering
- Revamped organization's donor database; updated and re-evaluated over 2,000 foundation records

Global Transaction Services Department, DBS Bank

Taiwan, Taipei

Summer Intern

Jul. – Aug. 2023

- Executed solo research project on the AI industry; identified 16 client prospects and increased product manager efficiency by narrowing 32 candidates to 8 with detailed financial profiles
- Represented the GTS department and briefed 40+ colleagues at an internal event
